Portsmouth, N. H., January 20, 1926.

To the Honorable City Council:—

Gentlemen:

Submitted herewith, is the annual report of the financial transactions and statements of condition for the year ending December 31, 1925.

Respectfully,

ROBERT M. BRUCE,

City Auditor.

**Abstract from an Act to Amend the Charter of the City of
Portsmouth, Sections 25 to 29 Inclusive**

SECT. 25. The city auditor shall keep a record of the general financial condition of the city, of the amounts appropriated for each branch, board or department thereof, and of the receipts and expenditures of each branch, board or department. He shall twice in each year, and oftener, if necessary, audit the accounts of all city officials, commissions and boards who receive, handle or expend any moneys of the city, and shall report thereon to the city council twice in each year, and oftener if required. The city auditor shall give his entire time to the duties of the office.

SECT. 26. No bill against the city shall be ordered paid by the city council, or paid by the city treasurer until the auditor shall have approved the same and certified to said city council whether or not said bill was lawfully contracted; whether or not it is for goods or materials, the prices charged are reason-

able, also whether or not the goods were actually received by the city, and whether such bill is in favor of a person or party legally entitled to receive the same under the provisions of the act. He shall perform such other duties as are now or may hereafter be required by ordinance or by the city council.

SECT. 27. If the auditor shall knowingly make any false certification in any case provided for in Section 33, or shall approve any bill when the appropriation from which the same should be paid is exhausted, he shall be fined not exceeding two hundred dollars or imprisoned not exceeding six months, or both.

SECT. 28. If the treasurer shall pay any money from the city treasury, except an order of the city council after approval by the auditor, which order of the city council shall be certified to by the mayor, he shall be fined not exceeding two hundred dollars or imprisoned not exceeding six months or both, and he shall be personally bound to refund to the city any sum so paid.

SECT. 29. If any officer, board or commission or member thereof, of said city, excepting the board of police commissioners, having authority to make contracts or expend money in behalf of the city shall, by making any contract, purchasing any goods or employing any labor, or otherwise, undertake to make the city liable for any amount in excess of the funds available therefor from income or appropriation, said officer, board or commission, or member thereof, shall be removed from office by the city council after due hearing.

City of Portsmouth, N. H.

Report of Board of Sinking Fund Commissioners

Portsmouth, N. H., January 18, 1926

To the City Council of the City of Portsmouth, N. H.:

We submit herewith our report for the year 1925, and
append the following exhibits:

A—Balances.

B—Receipts and Payments.

C—Bonded Debt.

D—Ledger Balances.

E—Payment required by law to be made to the Sinking
Fund for the year 1926.

Respectfully submitted,

EDWARD SEYBOLT,
JOHN W. EMERY,
WILLIS E. UNDERHILL,

Board of Sinking Fund Commissioners.

I hereby certify that I have this day examined the accounts of the Board of Sinking Fund Commissioners, for the year ending December 31st, 1925, and find the same to be correct.

ROBERT M. BRUCE,

City Auditor.

January 28, 1926.

In accordance with Chapter 12, Section 5, of the Revised Ordinances of 1923, relating to the Sinking Fund and Commissioners thereof, the undersigned, acting together, have this day examined the securities and other assets in the Sinking Fund and have compared the same with the statement here submitted and find the same to be correct.

CHARLES M. DALE,

Mayor.

ROBERT M. BRUCE,

City Auditor.

January 28, 1926.

Portsmouth, N. H., January 18, 1926.

To the City Council of the City of Portsmouth, N H.:

We hereby submit our report for the year 1925:

Trust Funds	Exhibit I
Trust Funds, Public Library	" II
Income	" III
Investments	" IV

Respectfully submitted,

EDWARD SEYBOLT,
JOHN W. EMERY,
WILLIS E. UNDERHILL,

Trustees.

I hereby certify that I have this day examined the accounts of the Trustees of Trust Funds for the year ending December 31, 1925, and find the accounts to be correct.

ROBERT M. BRUCE,

City Auditor.

January 28, 1926.

The undersigned acting together have this day examined the securities and other assets in the Trust Funds and have compared the same with the statement here submitted, and find the same to be correct.

CHARLES M. DALE,

Mayor.

ROBERT M. BRUCE,

City Auditor.

January 28, 1926.

EDWARD A. WEEKS, JR.

City of Portsmouth, N. H.

In the Year One Thousand Nine Hundred Twenty-Five

A RESOLUTION MAKING AN APPROPRIATION TO MAINTAIN THE WATER WORKS FOR THE YEAR 1925.

RESOLVED, by the City Council of the City of Portsmouth assembled, as follows:

Section 1. To maintain the Water Works for the year 1925 the sum of eighty-two thousand seven hundred eighty-three and 00/100 Dollars (\$82,783.00) is hereby appropriated.

Said sum shall be taken from the water rates and other sources of income of said Water Works and used exclusively for the purpose stated herein, and no transfer therefrom shall be made except by resolution of the City Council, and no expenditure shall be made in excess of the funds available, under penalty provided in Chapter 212, Section 29, Laws of 1905.

Passed by City Council, February 5th, 1925.

Approved,

OREL A. DEXTER, Mayor.

Report of Water Department

To the Honorable Mayor and City Council,
 Portsmouth, N. H.
 Gentlemen:

We herewith submit the report of the Water Department for the year nineteen hundred and twenty-five.

MAINS AND SERVICES

Mains

During the year nineteen hundred and twenty-five, 300 feet of 6 inch pipe and 60 feet of 2 inch pipe was laid on Park street.

Services

New services were installed as follows:

25 feet of $\frac{3}{4}$ " pipe
 1 foot of 1" pipe
 1 foot of 6" pipe fire service

A separate by pass service to the Hartford property in the rear of the National Hotel was installed.

For these installations, 1511 feet of $\frac{3}{4}$ " pipe, 618 feet of 1" pipe and 105 feet of 6" pipe was required.

Sixty-one services were renewed from Main to sidewalks and 30 services renewed from sidewalk to cellar. In this work, 1148 feet of $\frac{3}{4}$ " pipe and 100 feet of 1" pipe was required. Eight services were abandoned and disconnected. Four curb shut-offs were replaced. Five frozen surfaces were thawed out with the use of our transformer at the property owner's expense. Forty-two slight inside repair jobs and cellar shut-offs were made by this department at the expense of the property owner.

The total amount of pipe used on services last year is as follows:

2705 feet of $\frac{3}{4}$ " pipe
 740 feet of 1" pipe
 105 feet of 6" pipe

LEAKS ON MAINS

Nineteen leaks were repaired on the mains as follows:

- 6" main Vaughan street at Raitts Court.
- 8" main Haven Line at Sherburne Station.
- 2" main on Wibird street.
- 10" main on Haven line at Harrison's Pasture.
- 6" main 2 leaks on Maplewood avenue.
- 12" main Greenland Road.
- $\frac{3}{4}$ " main Cornwall street.
- 8" main 11 leaks Newcastle line in Newcastle.

HYDRANTS

Two new 6" wood hydrants were installed on Barrett Road for the town of Newcastle, Newcastle furnishing the hydrants and fittings and paying us for the labor.

A hydrant rental of \$20.00 per year is to be charged for each of these two hydrants. Two hydrants were moved, one from private property on Clinton street to the curb line and one on Sagamore avenue moved back away from the surfaced highway.

Six hydrants were repaired as follows:

- Nobles Island—new valve.
- Maplewood avenue—new valve.
- Corner of Court and Atkinson streets—new valve.
- Clinton and Stark streets—new valve.
- Liberty and Jefferson streets—new valve.

The hydrant at the corner of Charles and Marcy streets was run into and broken off and had to be replaced with new hydrant. All hydrants were tested and packed and made ready for winter. \$130.30 was spent last year for keeping snow removed from around hydrants.

METERS

Another year has elapsed without the purchase of any amount of meters. We did have to buy 20 second-hand meters which have been repaired at small cost and put into service. Thirty-seven meters have been installed on new services. Three hundred and seventy-six meters have been removed and tested. Four hundred and forty-two meters have been reset. Eight large meters have been repaired in service.

Three meters have been changed from outside to inside and one changed from inside to outside. Twelve meter boxes have been repaired and rebuilt. Number of meters on hand, total 76.

59 $\frac{5}{8}$ " size.	1 3" Worthington.
9 $\frac{3}{4}$ " size.	1 2" Compound meter.
3 1" size.	1 $1\frac{1}{2}$ " Keystone.
1 3" Lambert.	1 $1\frac{1}{2}$ " Crown.

PEVERLY OR LOW PRESSURE MAINS

Thirty-three leaks were repaired on the upper Peverly lines:

- 12 on 10" spiral pipe at Hodgdon pasture.
- 10 on 12" cast iron at Haven Station.
- 6 on 10" spiral pipe at Coakley field.
- 1 on 8" spiral pipe on State street at Chapel.
- 2 on 8" spiral pipe on Middle street.
- 1 on cement pipe line at Peverly Station.
- 1 air valve box repaired State and Fleet streets.

DOVER STREET RESERVOIR

An 8" gate valve was installed on the riser control line at top of the reservoir. The front wall was painted and repaired.

PEVERLY BROOK STATION

The morot foundation disintegrated and had to be rebuilt. The spillway of the dam had to be rebuilt and leaks stopped between the core wall and the spillway.

HAVEN STATION

Very little repairs had to be made at Haven Station. Damage by lightning was our heaviest liability. The motor bearings had to be replaced, the pump discharge lines braced and tied, the boiler fire-box wall repaired and a new compensator and starting switch installed when the old one was destroyed by lightning.

SHERBURNE STATION

The gallery wall was rebuilt. A 5500 gallon reserve tank for boiler feed was installed; 8" well line main renewed; leaks repaired on 22 wells; boiler blow-off lines renewed; roof of

building repaired and concrete floor relaid; boilers were rebutted and fire boxes repaired; gallery cleaned out and screened over. Roadway to station from Greenland Road improved; Venturi meters have been placed on the Haven line to the gallery and on the new well line.

NEW WELLS

Very little attention was needed at this station. The only repairs to the pumps were the repairing and resetting of the field coils on two occasions.

A 1½" service was installed at the playground to flood the skating and hockey rinks.

Repairs to Water Department property, house, No. 230 McDonough street, were made.

RECAPITULATION

Total amount of pipe laid in 1925:

405 feet of 6" cast iron.

80 feet of 2" gal. wrought iron.

740 feet of 1" gal. wrought iron.

2705 feet of ¾" gal. wrought iron.

TOTAL LENGTH OF MAINS AND SIZES IN 1925

Size	10"	14"	12"	10"	8"	6"	4"
Length	6470	685	17966	6820	38495	70125	29908
Length	1.225	0.13	3.403	1.29	7.29	13.41	5.69
Size	3	2½	2	1½	1	¾	
Length	310	1593	18714	795	9361	5985	
Length	0.06	0.30	3.54	0.15	1.79	1.13	

For the financial statement of this department, we would respectfully refer you to the auditor's report.

RECOMMENDATIONS

The following recommendations are offered for 1926:

Transfer discharge of Laidlow pump at Sherburne Station so that water will pass through Venturi meter.

Pulling and cleaning and replacement of joints on wells at Sherburne Station.

Laying of 12" pipe line from Sherburne Station across the Plains and down Middle Road to Essex avenue to connect with end of present 12" line. This line is of the utmost importance as under present conditions we have but one feed line to the city, the 16" pipe on Islington street to the standpipe. If this line should need repairs, we would be without water in a few hours.

FRED E. HASTY, Clerk,
THOMAS E. COLLINS,
HORACE W. GRAY,

Board of Public Works.

Report of the Board of Public Works

To the Honorable Mayor and City Council,
 Portsmouth, N. H.

Gentlemen:

We herewith submit the annual report of the Board of Public Works for the year nineteen hundred and twenty-five.

HIGHWAY DEPARTMENT

STREETS

Street work this year has consisted of regravelling, reshaping, patching, gutter work and scarifying.

Work in one or all of the above classifications has been done on the following streets:

Albany, Ash, Atkinson, Austin streets, Aldrich Road, Bow, Brewster, Broad, Bartlett, Chapel, Court, Columbia, Cass, Cabot, Cutts streets, Concord Way, Crescent Way, Dennett street, Elwyn avenue, Falkland Way, Green, Gates streets, Humphries Court, Hill, Hanover, Highland, Kearsarge, Ladd, Lincoln, Lawrence, McDonough, Mount Vernon, Merrimac, Monroe, Marcy, Madison streets, Myrtle, Newcastle avenues, Orchard, Pearl, Penhallow, Pine, Porter streets, Preble, Porpoise, Raleigh, Ranger Ways, Rockland, Rockingham, Rogers, Rock streets, Ridge's Court, State, Summer, Salem, School, Sheafe, Spring, Salter streets, Sherburne avenue, Saratoga Way, Union, Water, Washington, Wibird streets, Willard and Woodbury avenues.

The following streets were oiled and sanded:

Ash, Atkinson, Austin, Albany streets, Aldrich Road, Brewster, Bow, Broad, Bartlett, Chapel, Cutts, Court, Chauncey, Cass, Columbia, Chatham, Cabot, Cornwall streets, Court Place, Dover, Dennett streets, Elwyn avenue, Fleet, Green, Gates, Hanover, High, Hawthorne, Highland, Hill streets, Islington Road, Jefferson, Ladd, Langdon, Lovell streets, Lincoln, Mendum, Myrtle avenues, McDonough, Merrimac, Marcy, Madison, Northwest streets, Newcastle avenue, Orchard, Pearl, Penhallow, Pine, Porter streets, Parrott avenue, Peverly Hill Road, Rockingham, Rockland, Rock, Russell, Rogers, School, Sheafe, Spring, State,

Summer, Salem streets, Sherburne avenue, Thornton, Union, Water, Washington, Wibird streets, Willard and Woodbury avenues.

A special appropriation from the City Council provided money for the construction of a gravel roadway on Woodbury avenue from Bartlett street to Maplewood avenue, covering 180,000 square yards. The new surface was first treated with an application of forty percent asphaltic oil and later with sixty percent asphaltic oil. With another application of oil in the spring this surface should be in good condition.

On Vaughan street, between Deer street and the Railroad Crossing and on Russell street at the intersection of Vaughan street, the old granite block pavement was relaid to new grade and cement grouted for a base for new hot-top pavement. Existing sidewalks were relaid and a new hot-top sidewalk built on the west side of Vaughan street. The completion of this short stretch gives a continuous smooth pavement from the Massachusetts line through Portsmouth to the mountains.

The bad curve on Sagamore avenue below Little Harbor Road has been straightened out and hot-top surfaced to the sidewalk line.

The difficult curve at Vaughan street and Raynes avenue was widened and banked.

The asphalt paved streets are in excellent condition. The first patching was done in the spring and wore so well that little work was required in the fall.

The steel wire fence on Junkins avenue has been painted with galvanizing paint and should now be good for a number of years.

SANDING SIDEWALKS

Sidewalks were sanded twenty-nine days since January first. The seventy-five miles of sidewalk we have to cover requires a large amount of sand. We now have about 300 cubic yards on hand in the City Yard. This amount ought to take care of all emergencies. The cost of handling, hauling and storing and spreading was \$600.00.

TREES

Under contract with the Tree Culture and Insurance Company, all brown tail moths were cut, gypsy moths painted. One thousand, five hundred and sixty-six trees were trimmed and fifty-nine trees were taken down.

BRIDGES

The railing on both approaches of Sagamore Bridge has been straightened to give full width of the roadway. The several bridges have required considerable replacement of planking. The Nobles Island bridge planking is in particularly bad condition and will have to be replanked in nineteen hundred and twenty-six.

The lower chord on one of the span trusses on the Atlantic Heights Bridge failed. The chord and truss were strengthened by additional timber. This bridge also needs replanking.

The planking in the walk ways of Junkins Avenue Bridge should be replaced.

SEWERS

A total of four hundred and forty-seven sewer troubles were cleared, two hundred and forty-five of which were found in main sewers and catch-basin outlets and two hundred and two in private drains.

On Park street between Middle street and Lincoln avenue, a defective sewer was abandoned and three hundred feet of 10 inch Akron pipe laid in a new location.

An extension of 80 feet of 8 inch Akron pipe was laid on Park street south of Mendum avenue. An extension of 40 feet of 8 inch Akron pipe was laid in Aldrich Road.

ASHES

Ash collections were made daily, Sundays and holidays excepted. Five thousand, one hundred and eighty-five loads were collected, hauled to the dump and spread.

SNOW REMOVAL

Last winter was a particularly difficult one to keep our roads clear of snow. The new Holt tractor accomplished the task well but a defective plow hindered the work when confronted by an unusually hard storm, followed by rain and cold. The plow has been replaced and improved and is now in first class condition. We found that one tractor was not sufficient to cover our 80 miles of streets, some of which are wide enough to require three or four trips of the plow. The work proceeded so slowly that we asked and received from the Council sufficient

money to buy another five ton tractor and plow. We have had delivery on same and now have two five ton tractor plows and one truck plow and another truck plow sent on trial.

STATE ROADS

Lafayette Road needed a lot of patching in the spring, due to the heavy truck traffic in the winter running in the same ruts. After the spring patching, this road came through the summer in good condition and required very little patching in the fall. The Sagamore, Greenland and Newington roads needed very little work and are all in excellent shape. All brush was cut on Lafayette Road, Greenland Road and Dover Road.

PLAYGROUNDS

The bleacher seats on the third base line at the playgrounds were replaced with a new stand. These seats were built complete for \$697.00.

The football field has been surfaced with loam and is now a fine playing field. Next year the baseball diamond should be covered with loam and sown to grass. The tennis courts were in constant use and crowded at all times. They will require extensive repairs and additional courts should be built.

The wooden bath-house has been in bad condition for some time and at the end of the season had to be broken up and removed as it was beyond repairing.

The daily attendance was larger than ever and shows increased interest from year to year. The supervisor and assistants carried out the programs of sports in a faithful manner.

The fence at the tennis courts was completely rebuilt.

A skating rink has been provided at the playground, the surface of which will be new every day. This provides a safe and excellent place for all to enjoy skating. A hockey rink has been built next to the skating rink.

GARBAGE COLLECTION—INCINERATOR

The garbage collection was accomplished with one man and team for collection and one man at the Incinerator. A total of 1,320,000 pounds of garbage was collected and consumed without the necessity of buying fuel. The stack on the Incinerator building has become badly rusted and should be scraped and painted next year.

REPAIRS TO BUILDINGS

The old hose tower on the building at the City Yard was cut down level with the rest of the building and is now used as a shop and tool room. Extensive repairs were made to sills and corner posts, all broken glass replaced, all doors fixed and whole building shingled.

The stable required new sills and floor beams as well as new flooring. All work was done by day labor and inside contract price.

All buildings at the City Yard were painted two coats.

SIDEWALKS

No funds for special sidewalk work or granolithic walks were provided last year. Nine thousand, five hundred and seventy-six square yards of gravel walks were surfaced. Seven hundred and two square yards of brick walk relaid. One thousand, one hundred and eighty-four lineal feet of curbing reset, two hundred and twenty-five lineal feet of new curb set and one hundred and twenty-six yards of hot-top walk laid.

Brick walks were relaid and curb reset on Chatham, Cass, Daniels, Hanover, Pleasant, Russell, Summer, Union and Vaughan streets. Hot-top walks were torn out and repaired on Summer street and Newcastle avenue.

Gravel walks were built and resurfaced on Brewster, Bridge, Broad, Cass, Franklin, Hanover, Islington, Lincoln, Langdon, McDonough streets, Miller and Newcastle avenues, Northwest, Pearl streets, Richards avenue, Rockingham, Rockland, Russell, Stark streets, Sherburne avenue, South, South School, Salem, Thornton and Union streets.

Our sidewalks, generally speaking, are in terrible condition and cause more criticism than any other department of the city. It would be a valuable asset to the city if the sidewalks on at least the main thoroughfares could be entirely relaid and put in first-class shape. Also, the flagstone cross-walks removed and either left out or replaced by hot-top.

RECOMMENDATIONS

The following recommendations are offered for 1926:

That a hard surfaced road be constructed from Maplewood avenue to the Atlantic Heights Bridge.

That Ladd street be paved with hot-top.

That Court Place be paved with hot-top.

That the granite block pavement in Islington street from Dover to Albany streets be covered with hot-top surface.

That Porter street be hot-topped from Fleet street to Church street.

That the new bleachers at the playground be painted.

That additional tennis courts be built at the playground.

That the tumble-down stone wall between Langdon Park and the playground be removed.

That Nobles Island Bridge and Atlantic Heights Bridge be replanked.

That the sidewalk planking on Junkins Avenue Bridge be renewed.

That New Vaughan street, Raynes avenue and Maplewood as far as Dennett street be hot-topped where the car tracks have been removed.

That the diamond on the playground be loamed and seeded.

FRED E. HASTY, Clerk,
THOMAS E. COLLINS,
HORACE W. GRAY,

Board of Public Works.

Report of the Board of Health for 1925

Diphtheria, number of cases	3
Measles	20
Mumps	22
Small Pox	1
Scarlet Fever	34
Typhoid Fever	2
Tonsilitis	19
Tuberculosis	64
Whooping Cough	79

To the Honorable Mayor and City Council.

The above is the report of the Board of Health for 1925.

CLARENCE F. PEARSON, Secretary.

Report of Inspector of Meats

Portsmouth, N. H., Dec. 31, 1925.

Hon. Mayor and members of the City Council:

The following is my report for the year 1925:

ANIMALS SLAUGHTERED

Veal	1362	Hogs	85
Lamb	40	Beef	233

PASSED FOR FOOD

Veal	1349	Hogs	85
Lamb	40	Beef	226

CONDEMNED AND DESTROYED

Thirteen (13) veal, these being underweight.

Seven (7) beef, two spoiled by accidental injuries; five and parts thereof diseased with tuberculosis.

Signed:

HAVEN T. PAUL, V. M. D.,

Inspector of Meats.

A true copy, Attest,

EDWARD A. WEEKS, JR., City Clerk.

Report of Sanitary Inspector

I herewith submit to the Honorable Mayor and City Council the annual report of the Sanitary Inspections for the year ending December 31st, 1925.

The following contagious diseases were reported during the year:

Chicken Pox	6	Scarlet Fever	21
Diphtheria	3	Small Pox	1
Erysipelas	0	Tuberculosis	0
Measles	17	Typhoid Fever	3

The following is a record of inspections made:

Number of samples of water sent to State Laboratory....	6
Number of inspections on barber shops	34
Number of inspections on soda fountains	66
Number of inspections on restaurants	240
Number of inspections on pool rooms	14
Number of complaints investigated and attended to.....	264

Respectfully submitted,

L. R. HAZZARD, M. D.,

Sanitary Inspector.

Report of City Bacteriologist

I herewith submit to the Honorable Mayor and Council a report of my work as bacteriologist done at the laboratory of the Health Department for the year ending December 31st, 1925:

Specimens of Diphtheria	152
Specimens of Gonorrhea	73
Specimens of Tuberculosis	3
Specimens of Water for Pathological Bacteria	14
Specimens of Milk for Pathological Bacteria	68
Specimens of Exudates	1
Blood Counts	6

One post-mortem examination of nose and throat for Medical Examiner, Dr. E. B. Eastman, which determined the cause of sudden death of a child to have been diphtheria. The diagnosis thus enabled the Medical Examiner to make an immediate return of the cause of death, and enable the health authorities to take the necessary precautions to check the spread of the disease.

The chemical analysis of the milk and water is made by the State chemist and reported to city bacteriologist for the benefit of health authorities.

The State chemist's reports of the condition of the City's water in the past year have always been good.

Respectfully submitted,

L. R. HAZZARD, M. D.,

Bacteriologist.

Respectfully submitted,

GEORGE D. DUCKER,

City Marshal.

The within report of the City Marshal of the City of Portsmouth, N. H., for the year ending December 31, 1925, is hereby accepted and adopted as the report of the Police Commissioners of said city.

S. F. A. PICKERING,
D. F. BORTHWICK,
D. W. BADGER,
Police Commissioners.

A true copy, Attest,

EDWARD A. WEEKS, JR.,
City Clerk.

Report of Superintendent of Fire Alarm and Inspector of Wires and Poles

Hon. Mayor and Members of the City Council.

The Fire Alarm system is in good working order and rendering good service. Circuits two and three, running down Junkins Ave., Lincoln Ave., Wibird and State streets have been rebuilt, as this part of the system was of old construction and in very bad condition.

The past year has been rather an expensive one as we have had one fire alarm box destroyed by parties unknown, and three destroyed by the heavy thunder shower in July, at which time the Hett barn on Maplewood avenue was burned. These boxes have been replaced by boxes of the very latest type which have been installed in the compact part of the city and the older ones removed to the outskirts.

The Fire Alarm whistle at the plant of the Portsmouth Power Co., which has been in continual service for the past 35 years was broken in the alarm for the Badger Rand Ice House Fire and in view of the length of service the same had rendered, it was deemed advisable to replace with a new one.

We are about to install a three phase motor generator outfit to charge the batteries at the Central Fire Station, this change being caused by the discontinuance of the 500-volt D. C. service of the Portsmouth Power Company.

I would recommend that the council make a special appropriation for the changing of a number of the fire alarm boxes each year to replace the older type, which have rendered good service for the past 35 years but are now causing trouble and should be replaced with boxes of the more modern type.

The Inspector of Wires and Poles has approved a large number of pole locations with the understanding that the

same be made joint locations with the New England Tel. & Tel. Co. and the Portsmouth Power Co., thereby doing away with two lines of poles as far as practical.

Yours very truly,

H. E. TRAFTON,

Supt. of Fire Alarm and Inspector of Wires and Poles.

Report of Fire Department

Portsmouth, N. H., January 1, 1926.

Fire Department, Office of Chief.

To the Honorable Mayor and City Council,

Gentlemen:—

The following is the annual report of the Fire Department for the year ending December 31, 1925:

Our total number of alarms were 129, as follows: 13 bells and 116 stills, including 12 out of town calls as follows: Newcastle 3, Rye 2, Kittery 1, Kittery Point 1, Eliot 2, York Harbor 1, Newington 1 and Stratham 1, making the greatest number of calls ever recorded by the Portsmouth Fire Department.

We have added 1 Seagrave Triple Combination Pump, Hose and Booster Tank to replace the old Pope Hartford Combination which was put out of commission answering a call for a truck on fire on the Lafayette road. The connecting rod broke and smashed the engine all to pieces. The tanks were all worn out from 14 years of hard usage.

Our Department now consists of 1 Hose and Chemical placed on a Cadillac chassis, 1 American-La-France Pump and Hose, 1 Seagrave Ladder Truck carrying 298 feet of ladders, life net, axes, picks, shovels, and other tools used in the Department, 2 Seagrave Triple Combination Pump, Hose and Chemical, of the latest type, capable of delivering 850 gallons of water a minute. This collection makes our Department perfect in apparatus. We need more hydrants, especially at the West End where there are so few that the conditions are serious in that section. There are also other places which need an addition of hydrants.

The figures below will show the efficiency of the Portsmouth Fire Department:

	Building	Contents
Value	\$100,700.00	\$53,900.00
Insurance	53,750.00	24,850.00
Damage	26,375.00	15,714.00

In closing my report, I wish to thank His Honor the Mayor and members of the City Council for the interest they have manifested in the welfare of the Department, the Assistant Engineers, Police Department, Officers and men of the several companies, who by their promptness in the discharge of their various duties have added much to the efficiency of the Department, also the Boy Scouts for their efficient work at Brush Fires.

Roll of the Fire Department

Chief—William F. Woods.

First Assistant—Willis P. Gray.

Report of City Solicitor

To His Honor, The Mayor and City Council:

In contrast with existing conditions of the previous years in which it has been my privilege to act as City Solicitor, the close of business for the year 1925 found the City practically free of litigation, the only proceeding now pending in Court being a tax appeal case of questionable merit. All matters of litigation involving the

Atlantic Corporation, its subsidiaries, and the United States Government were amicably settled after a preliminary Court hearing, and contractual obligations arising out of the Atlantic Heights development project have been successfully terminated.

I desire to invite the attention of the City Council to a situation, which if allowed to continue, will constitute a flagrant encroachment upon our highways and establish a serious menace to the safety of travellers thereon. It will be recalled that the Boston & Maine Railroad were given permission by the Public Service Commission to temporarily abandon operation of the Portsmouth Electric Street Railway, which carried with it the right to permit all appurtenant material used in the operation of the railway to remain on our highways undisturbed, in spite of the emphatic opposition of your solicitor and Mayor Dexter. This period of grace expires in May of this year and I earnestly recommend that the City Council take whatever action as may appear to be necessary to require the Boston & Maine Railroad to immediately remove these several obstructions from our highways.

This office has endeavored to co-operate with the several departmental agencies of the City, committees of the City Council and individual officers in the careful execution of every form of legal business presented for consideration and attention.

Respectfully submitted,

JOS. D. SULLIVAN,

City Solicitor.

ANNUAL REPORT

OF THE

Board of Instruction

OF THE

City of Portsmouth, N. H.

For the Year Ending December 31,
1925

At the regular meeting of the Board of Instruction held January 12, 1926, the annual reports of the Secretary of the Board of Instruction and the Superintendent of Schools were presented, accepted by the Board, and ordered transmitted to the City Council as the report of the Board.

HARRY L. MOORE, *Secretary*.

Central Office, School Department

CITY HALL, DANIEL STREET

SUPERINTENDENT OF SCHOOLS

Harry L. Moore 640 Middle Street
Office Hours—School Days, 8 to 9 and 4 to 5. Saturdays 9 to 12.

CLERK

Alice M. Chase 24 Friend Street
Office Hours—Daily, 8 to 12 and 1.30 to 5. Saturdays, 8 to 12.

TRUANT OFFICER

Richard D. McDonough 547 State Street
Office Hours—School Days, 9 to 9.30 and 2 to 2.30

CALENDAR

Terms—September 8 to December 18, 1925

January 4 to February 19, 1926

March 1 to April 16, 1926

April 26 to June 18, 1926

School Holidays—October 12, November 26, 27, 1925, May 31,
1926

SCHOOL SESSIONS

Kindergarten: 9 to 12

Grade I: 9 to 11 and 1.30 to 3.30

Grades II to VI: 9 to 12 and 1.30 to 3.30

Junior High School, Grades VII and VIII: 9 to 12 and 1.30 to
3.30

High School: 8.15 to 1

SCHOOL SIGNALS

When the signal 2-2-2-2 sounds at 7.10 A. M. there will be no morning session for all schools. When the signal sounds at 8 A. M. there will be no morning session for kindergarten to sixth grade inclusive; the high schools will be in session but absence will not be counted against perfect attendance. When the signal sounds at 12.45 there will be no afternoon session for all schools.

Respectfully submitted,

H. L. MOORE, *Secretary.*

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Board of Instruction:

I herewith submit to you my first annual report as superintendent of your public schools, the thirty-eighth to be issued from this office. My term of service having yet covered so short a period I shall merely undertake to present a brief statement of school conditions in Portsmouth as I see them, together with some suggestions and recommendations relating thereto.

Membership

The membership in the schools a year ago was 2,407 pupils. Today it is 2,479, a gain of 72, or 4%, distributed as follows:

ENROLLMENT OF PUPILS, DECEMBER 23, 1925

Schools	Elementary Grades						Junior High			High				Train. School		Total by Schools 1925	
	K	I	II	III	IV	V	VI	VII	VIII	IX	X	XI	XII	XIII	Jr.	Sr.	
High										232	167	162	140	3			704
Whipple.....								133	176								309
Farragut	32	45	49	44	55	39	46								9	13	332
Haven	39	49	40	30	47	43	40	30									318
Lafayette.....	30	35	33	33	32	61	42										266
New Franklin.	36	32	34	34	33	29	30	36									264
Cabot Street...	25	18	23	26	17												109
Atlantic Hts...	26	29	17	22	16	17	12										139
Plains.....		9	6	4													19
Lafayette Rd..		2	5	2	1	3	6										19
	188	219	207	195	201	192	176	199	176	232	167	162	140	3	9	13	2479

Of this total 86 are non-resident pupils, registered in the High School. By classes the year's gain is found chiefly in the high school and kindergartens, the average increase in Grades I to VI being five pupils per grade. By buildings the larger gains have been at the High School, Farragut, and Atlantic Heights.

Atlantic Heights

The enrollment at Atlantic Heights has far exceeded the expectation of the committee having in charge the erection of the new three-room building completed in August. The school opened in September with 102 pupils in attendance; today there are 145, an increase of 42%. To meet this situation the kindergarten, limited to 30 members, was transferred to a vacant store and an assistant teacher employed in the upper grade room. A study of the pupil distribution through the six grades leads to the conclusion that this increase is permanent as long as the present population remains at the Heights, and that the enrollment will grow during the next three years to approximately 175 pupils. Consequently at least three additional class rooms are required. I recommend that necessary arrangements be made at once in order that construction may begin as early as the spring season will permit.

Training School

There are at present 22 girls in training at the Farragut School, nine juniors and 13 seniors. The quality of leadership and instruction in the school ensures to Portsmouth an adequate supply of exceptionally trained elementary teachers. My observation thus far leads me to suggest but two recommendations: first, higher personal and scholastic qualifications for admission; and second, some immediate improvement and enlargement of teaching material and building equipment. Certificates of high school graduation, character and physical health are now required of all applicants. To these I would add a high level of scholarship and a real personal adaptation to the work of teaching. Certain inexpensive changes of building and additions to equipment would add much to the convenience and effectiveness of operation.

Teachers

Portsmouth is fortunate in the quality of its teaching staff. With few exceptions there appears to be a professional spirit, a loyalty and an ability to do, quite commendable. The city is in a position to demand and retain the best. It can afford to do no less. In filling vacancies the highest qualifications should be sought, and when once a teacher has proven her worth a permanent tenure with adequate salary should follow. I suggest the advisability of a salary plan based upon training, length of service and professional achievement. Of the present staff of 83 teachers, principals and directors, 46 hold permanent state certificates, 36 state licenses, and one a temporary permit. Sixteen changes have occurred through the year; seven in the high school, six in the junior high school, two in the elementary school, and one in the department of drawing.

Special Subjects

The schools now have the benefit of departments of music, drawing and physical education. The city has a reputation for good music, due in part I believe, to the long continued music program in the schools. And a school program needs no better justification than its transfer to the home and civic life of the community. Our music work, however, is restricted. The director is employed but four days a week. The outlying schools receive little of his time. The number of classes is increasing, and there are possibilities of credit courses in the high school, also of further vocal and instrumental groups. Accordingly I recommend the employment of the director for his full time, namely, five days a week.

The work in drawing is well under way. Every school in the city is receiving attention and there are three voluntary classes at the high school. The director visits each building every other week, except the high and training schools, where classes meet each week.

The attempts in physical education are assuming large

proportions. During the mornings the director has charge of the formal drills and organized plays at the several buildings; in the afternoons he directs and coaches practice games of the upper grades and high schools. Through the courtesy of Secretary Volz and Major Smith the Y. M. C. A. gymnasium and the State Armory are used for high school practice. Freeman's Hall is used for scheduled games and the newly prepared gymnasium in the Farragut attic for elementary school games. The whole physical program contemplates formal setting up and corrective exercises, also participation in some game for every boy and girl in the schools. It is not primarily to develop teams for interscholastic contests. However important and desirable this phase of the work may be, it is only secondary to the main purpose of proper physical exercise, and the larger benefits arising from team play and co-operative effort.

Kindergartens

Six kindergartens are in force with an enrollment of 188 pupils. Except at Atlantic Heights all applicants were accepted in September who became five years of age before the following January 1st. If this important part of the school system is to serve its best purpose, some changes of standards should be effected and either a limit of 30 pupils in each kindergarten be established or an assistant regularly employed in rooms enrolling an excess of that number.

High Schools

It requires but a casual inspection of our high schools to become convinced of the necessity for action in enlarging both plant and equipment. The necessity has been repeatedly pointed out in previous reports. No extended discussion is needed here. A study of attendance and promotion indicates no prospect of material decrease in enrollment. The question now is not one of *necessity*, but of *when the necessity shall be met* and *what plan of construction is most feasible*.

Whatever building program is finally accepted should be determined by the type and quality of education the city desires for its children. In this connection I suggest the following:

1. Three years of junior high school and three years of senior high school in place of the present two-four plan.
2. An extension of shop work at least to reach Federal standards of time and accomplishment.
3. A reorganization of the commercial outline to provide an extra year of business practice.
4. A revision of the household arts program in line with the new State standards.
5. An extension of teaching staff so that no teacher may have over 120 pupils per day.
6. Employment of a woman assistant to assume the duties of office assistant and girls' advisor.

Of the six suggestions only the last is possible in the present buildings and instead of enlarging and extending the work it may become necessary to retrench and curtail it. For further data I refer you to the Headmaster's report which follows:

HEADMASTER'S REPORT

January 6, 1926

Mr. Harry L. Moore,
Superintendent of Schools,
Portsmouth, N. H.

Dear Sir:

I herewith present my eighth annual report as Headmaster of the Portsmouth High School.

The total registration for the school year ending June 18, 1925, was 735.

The total registration this year is 737, while the actual membership on January 8 was 700. Of this number 86 are non-resident pupils, allocated as follows:

Dover Point 2, Eliot 4, Fort Constitution 3, Greenland 15, Kittery 2, Navy Yard 6, Newcastle 19, Newington 14, North Hampton 6, Rye 15.

The following table shows the enrollment of the school by classes:

	Boys	Girls	Total
Seniors	62	81	143
Juniors	71	96	167
Sophomores	84	96	180
Freshmen	125	118	243
Post graduates	4		4
	<hr/> 346	<hr/> 391	<hr/> 737

The distribution of pupils according to courses is as follows:

	Number	Percent.
Commercial	262	35.5
Academic	241	32.7
Manual Arts	203	27.5
Household Arts	31	4.3

The following table shows the distribution in courses by classes:

<i>Commercial</i>		<i>Manual Arts</i>	
Seniors	48	Seniors	27
Juniors	57	Juniors	46
Sophomores	71	Sophomores	52
Freshmen	86	Freshmen	77
		Post graduates	1
<i>Academic</i>		<i>Household Arts</i>	
Seniors	52		
Juniors	58	Seniors	16
Sophomores	55	Juniors	6
Freshmen	73	Sophomores	2
Post graduates	3	Freshmen	7

Since September thirty-seven pupils have left school, and their distribution according to classes and courses is as follows:

	<i>Course</i>	
Seniors	Commercial	2
	Household Arts	2
Juniors	Academic	2
	Commercial	2
	Manual Arts	4
	Household Arts	1
Sophomores	Academic	2
	Commercial	7
	Manual Arts	5
	Household Arts	1
Freshmen	Academic	2
	Commercial	3
	Manual Arts	4

The causes of these withdrawals are three: change of residence, illness, and the necessity of going to work.

Notwithstanding these withdrawals, there are more pupils in the Manual Arts machine shop than can be adequately provided for with our present equipment.

A study made last year showed that eighty percent of the boys in the Manual Arts course follow this line of work after graduation. More adequate training is necessary and to that end I recommend the addition to the machine shop of ten nine-inch swing four foot bed screw cutting engine lathes, and that the planer be applied by way of exchange in securing this equipment.

The Commercial department will be so much overloaded next year in stenography and typewriting that it will be necessary to employ a teacher who shall give her full time to the classes in typewriting.

Seventy percent of those who complete the commercial course follow this line of work as a vocation, and should, therefore, receive the best training that the school can give them.

The inadequacy of our building to properly accommodate the large number of pupils that come to us has made neces-

sary for a time this year the use of the library and the drawing room as home rooms, and of the assembly for the meeting of two classes for recitations.

While we cannot accurately anticipate the enrollment of the school next September, it seems reasonably certain that it will exceed 750 pupils, and plans should be made for their suitable accommodation, both in home rooms and in classes.

Two solutions of the problem present themselves. One is to refuse admission to non-residents, and the other is to have one class go to school in the afternoon instead of in the morning. Those solutions are based on the assumption that each pupil is to have a desk in which to keep books and other supplies.

During the summer vacation the High School building was redecorated throughout, the walls tinted and the wood work varnished. New lighting fixtures and a sprinkler system were installed. The building now presents a fine appearance, and every effort will be made to keep it in the best condition.

The printing room has been taken over as a general office for the school, the smaller room being used as a private office. This is a much needed change and will make for great efficiency in the administration and organization of the school. I am deeply appreciative of this new office.

The teachers' room is being refurnished and, when completed, will have a real home-like atmosphere.

The teachers are very grateful to you and to the members of the High School Committee for this attractive room.

Scholarship

In scholarship the school is maintaining its good standing. The New England College Entrance Certificate Board has renewed the certificate privilege of the school for a period of four years. The reports from the colleges concerning our graduates who entered in September are very gratifying, and the spirit of work within the school is good.

An indication of good scholastic work is a small number of retarded pupils. A study of the school shows that 8.5 percent are retarded; 32.0 percent accelerated; and 59.5 percent normal. Dr. Strayer's wide investigation showed one-third retarded, less than five percent accelerated, and fifty-five to sixty-five percent normal.

Activities

The various activities of the school, athletic, social, musical, dramatic, and club, have been very successful, and reflect much credit on their directors as well as on the participants.

Health education has received a great stimulus through the creation of a department of physical education. Mr. Brackett has aroused a real interest among the boys and girls in this important matter, and provision is to be made, as far as possible, for every boy and every girl to participate in some form of athletics, in addition to the regular gymnasium work. These activities, supplemented by regular health instructions, will be of lasting benefit to the pupils.

The Student Council has been reorganized by having the pupils of each home room elect a representative to it. Those members, under the direction of the home room teachers, are collecting the athletic dues, distributing and selling season tickets for the various athletic sports, and co-operating with committees of the teachers in arranging socials and assembly programs.

Attendance

The percentage of attendance for the school year September, 1924, to June 18, 1925, was ninety-six percent, and the number of tardinesses per pupil was four-tenths of one percent. This excellent record of regularity and punctuality denotes a business-like attitude on the part of pupils and a fine spirit of cooperation by the parents.

Teachers

The seven new teachers who began their work with us in September are showing an excellent spirit which is reflected in the quality of the results being achieved by them.

Through personal conferences and teachers' meetings the teachers are kept informed as to the best educational thought and procedure to the end that we may develop a sane philosophy of education to meet present day conditions and the real needs of life.

Committees of the teachers are at work upon such problems as the reorganization of the curriculum, individual instruction, and a uniform marking system, and their conclusions will be of great educational value to the city.

Graduation

The exercises of graduation of the class of 1925 were held in Music Hall on Thursday evening, June 18. The following was the program:

Music

High School Orchestra

Invocation

Rev. William Safford Jones

Singing—Flower Song

E. F. Davies

High School Chorus

Violin Solo—Resignation

C. Danela

Louis Schwartz

Presentation of Class Gift

Justin Seymour McCarthy

Acceptance of Gift

Rev. Lucius H. Thayer

(For the High School Committee)

Presentation of the Haven Medals

Mr. Harry W. Peyser

(For the High School Committee)

String Trio—Hungarian Dance No. 5 Brahms
 Renato Fracassi, violin; Frederick Gardner, cello;
 Dora Sanborn, piano

Conferring of Diplomas

His Honor, Mayor Orel A. Dexter

Singing of Class Ode

Class of 1925

CLASS OF 1925

Academic Curriculum

Woodbury Sanderson Adams	Frederick Valentine Hett
Mary Haywood Barker	Katharine Loring Howard
Charles Edwin Batchelder	Walter Merrill Hunt
Virginia Elizabeth Bishop	Catherine Mary Hurley
Geneva Dixon Bowden	Charles Hurley
Matthew John Casey	Russell Gibbs Kimball
Justin Munroe Clark	Paul Kirvan
Ruth Cleary	Sadie Kuchinsky
Benjamin Cohen	Bradley Baybutt Ladd
Bessie Cohen	Mary Arleyne Lamprey
David Cohen	Ardean Kent Lance
Philip Bassett Davis	Leo Hyman Liberson
Winona Mabel Dimock	Rose Lisagor
Elsie Burnette Dison	Mary Frances Loughlin
Mary Jean Duncan	Barbara Lillian Manson

 Leone Hazel Pike
 Irma Leslie Rintz
 Ruth Osborne Vickery
 Elizabeth Mary Welch
 Esther Mae Zeidman

Mechanics Arts Curriculum

Morris Herbert Berry	Willard Cauley Marshall
Edward Alvin Brown	Melvin Kenneth McCarthy
Rudluff Chainey	Lewis Munro McNeil
Winfield Harry Chick	Carl Stenson Priestley
Cecil True Davis	Clarence Randolph Schirmer
Maugo Oreste Ferrini	Harlan Willis Schurman
Harry Clifton Garland, Jr.	Lawrence Eldridge Seavey
Arthur Arnand Harriman	Marston Badger Shaw
Clyde Emerson Hughes	Harry Trefethen
Elmer Kenneth Littlefield	

Haven Medals

Thirteen Haven Medals for excellence in studies were presented to eleven members of this school by Mr. Harry W. Peyser, for the High School Committee: General Excellence for the first two years: Frances Siegel, Frank Washburn Peyser; General Excellence for the last two years: Barbara Lillian Manson, Benjamin Yoffe; Excellence in mathematics for three years: Anna Grace Randall, Frederick Carl Dirks; Excellence in English for four years: Mildred Meloon, George Leonard McKenna; Excellence in Latin for four years: Leo Hyman Liberson; Excellence in science for two years: Benjamin Yoffe; Excellence in French for three years: Benjamin Yoffe; Excellence in history for two years: Elsie Burnette Dixon; Excellence in the commercial course for four years; Anna Millicent Walker.

Honorable Mention

Honorable mention was made of the work of the following pupils:

General Excellence for the first two years: Rachael Slayton, Rose Yoffe; General Excellence for the last two years: Justin Clark, Benjamin Cohen, David Cohen, Winona Dimock, Elsie Dixon, Maugo Ferrini, Herbert Googins, Leo Liberson, George McKenna, Mildred Meloon, Ruth Norton, Badger Sherburne, Anna Walker; Excellence in mathematics for three years: Paul Gray, Clifton Hall, Ruth Hassett, Robert Hubbard, Joseph Lamb, William Locklin, Constance Rand, Eleanor Sheehan, Dorothy Walton, John Witham; Excellence in English for four years: Benjamin Cohen, David Cohen, Elsie Dixon, Paul Fullam,

Jennie Guptill, Katherine Howard, Paul Kirvan, Ardean Lance, Leo Liberson, Barbara Manson, Ruth Norton, Rose Shapiro, Badger Sherburne, Benjamin Yoffe; Excellence in Latin for four years: David Cohen, Winona Dimock, Elsie Dixon, Barbara Manson, Mildred Meloon, Ruth Norton, Rose Shapiro, Badger Sherburne; Excellence in science for two years: Justin Clark, Seymour McCarthy, George McKenna; Excellence in history for two years: Elizabeth Babb, Justin Clark, David Cohen, Benjamin Cohen, Catherine Connell, Maugo Ferrini, Paul Fullam, Thelma Hewitt, Merrill Hunt, Paul Kirvan, Bradley Ladd, Leo Liberson, Rose Lisagor, Kenneth Littlefield, Dorothy Lutts, Barbara Manson, Mildred Meloon, Ruth Norton, Agnes O'Neil, Marion Ryan, Badger Sherburne, Benjamin Yoffe.

Of our 144 graduates in June, 1925, seventy-six are attending other institutions of learning, as follows:

Amherst College	1	Miss Burnham's School	1
Aurora College	1	New England Conserva-	
Boston School of Physical		tory of Music	2
Education	1	Norwich University	2
Bowdoin College	2	Phillips Exeter Academy	1
Bryant and Stratton	1	Plymouth Business School	5
Burdett Business College	2	Plymouth Normal School	4
Chestnut Hill School	1	Portsmouth Training	
Dartmouth College	2	School	5
Gorham Normal School	1	Post graduates at P. H. S.	3
Harvard University	3	Sargent's School	1
Holderness School	1	Severn School	1
Holy Cross College	1	Simmons	2
Howard Seminary	1	Smith College	1
Keene Normal School	3	University of New Hamp-	
Kendall Hall	1	shire	17
Kents Hill Seminary	1	University of Florida	1
Massachusetts Inst. of		Wheaton College	3
Technology	3	Worcester Normal School	1

Your grasp of secondary school problems and your fine spirit of co-operation in working out some of these problems which confront us here in Portsmouth I appreciate and for them am grateful to you.

To the members of the High School Committee the teachers and the headmaster are grateful for the improvements

and renovations throughout the building, giving us all better conditions under which to do our work.

The professional spirit of an excellent corps of teachers and the willing attitude of a fine lot of boys and girls are responsible for whatever measure of success may have attended our efforts during this school year.

Respectfully submitted,

LEE T. GRAY,

Headmaster.

COSTS

The cost per pupil for all purposes for the year just closed was \$67.35, a decrease of \$4.39, or 6% from that of 1924. This decrease is mainly due to the larger attendance without corresponding expenditure. A detailed statement follows:

What Administration Costs

It cost

\$2.62 per pupil for all expenses of administration.

What Instruction Costs

It cost

\$45.83	per pupil for teaching
1.37	“ “ “ text-books
1.50	“ “ “ scholars' supplies
.98	“ “ “ other expenses of instruction

What Operation of Buildings Cost

It cost

\$3.54	per pupil for janitor service
2.13	“ “ “ fuel
.66	“ “ “ water, light and building supplies
.13	“ “ “ all other expenses of operation

What Other Items Cost

It cost

\$1.16	per pupil for state-wide supervision
5.55	“ “ “ repairs
1.69	“ “ “ new equipment

Of the three main items of current expense

68%	of the total cost went for teaching
5.2%	“ “ “ “ “ janitors' service
3.7%	“ “ “ “ “ administration

The sum of \$5,321 was received last year in payment of high school tuition of non-resident pupils. This was at the rate of \$70.00 per year per pupil. Under a change made by the last State legislature only the per pupil *cost of instruction* in the high school may be charged for this purpose. Our last year's cost for high school instruction was but \$62.88 per pupil. Consequently no town sending pupils to the Portsmouth High School may pay a tuition rate of more than that amount for the current year. It is possible, however, to enter into contract with such towns at any charge agreed upon. I suggest that such contracts be made for the ensuing year.

For comparison I give the following per capita expenses of instruction in other city high schools of the state:

Laconia	\$129.66
Manchester	119.07
Somersworth	113.85
Berlin	109.49
Concord	99.14
Dover	94.56
Nashua	78.75
Rochester	77.66
Keene	73.33
Portsmouth	62.88

REPAIRS

The extensive painting and repairs of the year have added materially to the building interiors. This summer the Plains building should be painted and the Lafayette road building painted and chemical toilets installed. Hereafter I recommend as a business proposition that an adequate sum be appropriated each year for repairs and upkeep of school property.

IN CONCLUSION

The usual class room work continues. Some changes in the program of studies are under way, particularly in English and geography. No special methods have been stressed. Emphasis has been laid upon persistent drill and an appreciation of the major objectives in education.

Financial recommendations have been made upon the basis of existing needs as I see them. I trust they will meet with your confidence and the co-operation of the City Council.

Respectfully submitted,

H. L. MOORE,
Superintendent of Schools.

Bertha Louise Coleman,	Hobbies
Carolyn Miller Furber,	Play in Education
Phyllis Roberts Gray,	The Appreciation Lesson
Mildred Bancroft Hannaford,	Unshackling Youth
Veronica Alice Horan,	Keeping Step with Education
Christine Bertha O'Brien,	Co-operation of Home and School
Helen Mary O'Connor,	Scientific Thinking as Related to Teaching
Mary Catherine Rafferty,	Mental Tests and Their Use
Kathryn Eleanor Riley,*	Linking the Past and Present

*Miss Riley passed the State examinations for teachers with honors—an average of 92%.

The Graduates of the Class of 1925 are teaching as indicated below:

Constance D. Block, North Hampton, N. H.
 Bertha L. Coleman, Bristol, N. H.
 Carolyn M. Furber, Madbury, N. H.
 Phyllis R. Gray, Bristol, N. H.
 Mildred B. Hannaford, Stratham, N. H.
 Veronica A. Horan, Portsmouth, N. H.
 Helen Mary O'Connor, Portsmouth, N. H.
 Mary C. Rafferty, Exeter, N. H.
 Kathryn E. Riley, Portsmouth, N. H.

GENERAL STATISTICS FOR SCHOOL YEAR 1924-1925

Number of Children Between the Ages of Five and Sixteen in the City, October 1, 1925, according to Census	2656
Boys	1331
Girls	1325
Whole Number of Different Pupils Registered During the Year	2680
Whole Number of Different Pupils Registered, not pre- viously registered in any school, in the State during the school year	2627
Boys..	1294
Girls	1333
Number Under Five Years of Age	46
Number Between Five and Eight	577
Number Between Eight and Fourteen	1096
Number Between Fourteen and Sixteen	439
Number Between Sixteen and Twenty-one.....	388
Number over Twenty-one	81
Average Membership	2483
Average Daily Attendance	2335
Average Daily Absence	148
Percentage of Daily Attendance	94
Number of Tardinesses	1888
Number of Pupils not Absent or Tardy	213
Number of Pupils, Non-Residents in High School	92
Length of School Year in Weeks	37
Number of Visits of Superintendent	492
Number of Visits by Members of the Board	31
Number of Visits by Citizens	1960

ENROLLMENT BY GRADES

Elementary Schools

Kindergarten	166
Grade I	240
Grade II	195
Grade III	211
Grade IV	200
Grade V	186
Grade VI	191

Whipple Junior High

Grade VII	190
Grade VIII	194

High School

Grade IX	203
Grade X	182
Grade XI	185
Grade XII	153
Post Graduate	12

Training School

Junior Class	18
Senior Class	10
Evening School	91
Total Enrollment	2627

PROMOTION, RETARDATION AND LOSS

	GRADES											
	I	II	III	IV	V	VI	VII	VIII	IX	X	XI	XII
	I	II	III	IV	V	VI	VII	VIII	IX	X	XI	XII
												Total
Pupils promoted to next grade during, or at the end of the school year	193	173	180	180	167	175	171	152	162	150	149	144
Pupils in grade at end of year not promoted	33	18	23	13	9	5	6	25	19	15	10	3
Pupils in grade at end of year who have been there two years	0	1	0	0	0	0	0	0
Pupils in grade at end of year who have been there more than two years	0	1	0	0	0	0	0	0
Pupils in grades I and II over ten years of age	0	2
Pupils who have left school, and whose school life was presumably ended during year	0	2	0	0	0	2	4	5	14	11	17	5
Other pupils who did not return to school after summer vacation, and whose school life was presumably ended	0	0	0	0	0	0	0	4	10	3	6	5
Average of September ages in years and months of all pupils in grade during year	6-4	7-11	8-11	9-11	11	11-11	12-10	13-6

The following table shows the September census, total enrollment, average membership and average attendance of the schools as given in the annual reports published from 1900 to 1925, and also the same data for the fall term of the present year.

School Year	School Census	Total Enrollment	Average Membership	Average Attendance
1899-1900	1,791	1,647	1,445	1,295
1900-1901	1,695	1,706	1,479	1,322
1901-1902	1,770	1,785	1,540	1,371
1902-1903	1,938	1,888	1,654	1,470
1903-1904	1,927	1,853	1,672	1,515
1904-1905	1,910	1,833	1,640	1,502
1905-1906	1,874	1,826	1,662	1,492
1906-1907	1,982	1,703	1,541	1,397
1907-1908	2,026	1,738	1,585	1,448
1908-1909	2,057	1,741	1,597	1,431
1909-1910	2,048	1,788	1,588	1,447
1910-1911	2,150	1,780	1,608	1,476
1911-1912	2,202	1,898	1,725	1,589
1912-1913	2,283	1,949	1,798	1,689
1913-1914	2,339	2,075	1,879	1,756
1914-1915	2,385	2,190	2,016	1,898
1915-1916	2,473	2,262	2,084	1,934
1916-1917	2,528	2,327	2,163	1,976
1917-1918	2,743	2,360	2,173	2,000
1918-1919	2,766	2,694	2,190	2,023
1919-1920	2,757	2,818	2,286	2,095
1920-1921	2,651	2,642	2,387	2,229
1921-1922	2,567	2,686	2,324	2,183
1922-1923	2,528	2,505	2,345	2,309
1923-1924	2,501	2,656	2,248	2,110
1924-1925	2,656	2,680	2,483	2,335
Fall 1925	2,656	2,499	2,492	2,345

The last three columns refer to public school membership only.

ATLANTIC HEIGHTS SCHOOL

Contract awarded, October 24, 1924

Construction begun, November 1, 1924

Building completed, August 31, 1925
